NATURE'S SMART CHOICE

JP Enterprises is the result of nature-loving enthusiasts looking to make a big splash in the efforts to save our oceans and planet. Plastic straws are polluting our oceans and consequently unsettling the entire ecosystem, affecting not only marine life but impacting human health as well.

A single straw may not be much, but when 3 billion plastic straws are dumped into the ocean, it makes up to 4% of the world's plastic waste – it all adds up!

Rice Straw objective is to make a change and collectively work towards a sustainable climate and future for generations to come. We believe in starting small, one Rice Straw at a time, because it all adds up!

Embracing and encouraging eco-friendly alternatives, JP Enterprises seeks to show that a journey of a thousand miles begins with a single step – in this case, a single rice straw. Adapting to natural and ecological options without affecting the drinking experience is a convenient and smart way to make a difference.

ABOUT US
JP Enterprises

OUR Products

Our company was formed in 2024 to join the efforts of restoring our environment and being a solution for an increasingly environmentally conscious world. Following much research and development, we created the Rice Straw, Rice Straws, Wooden Stirrer, WoodenSkewers, KnotStick, SatayStick.

BIODEGRADABLE

Rice Straw

*Unique Straws Crafted from Rice Starch
Think Wise, Choose Rice. Switch to Rice
Straw Today!*

JP Enterprises Rice Straws have been designed with one goal - reducing global plastic waste. It can be used across a broad spectrum of industries and venues, including F&B outlets, the hospitality industry such as at events, sporting venues, your favourite coffee shop, and even your home! Wherever you have a drink, your decision to use a rice straw will be a step forward in our effort to save Mother Nature! Together we can make that difference. Make the switch without affecting your drinking experience!

Eco-friendly biodegradable rice straws are affordable, long-lasting, and leave no waste to future generations. It is also edible and made of 100% natural ingredients.

WOODEN *Products*

Wood is heat resistant so it handle the high temperature without transferring any wooden taste to beverage. It is 100 % Eco Friendly and Bio degradable. It is perfect disposable items & save time and water by not having to wash.

WOODEN *Stirrer*

Wooden Stirrer does not put you at risk of contamination when preparing food. You will not have to worry about chopping or fraying the wood and putting it into food when preparing food. So if all cookers are made of wood, you won't have any health problems.

Wooden Coffee Stirrer ensures a High Standard of hygiene because it can be used once. It adds a touch of flair to the kitchen. You can also use wooden tableware to serve food to your family or Guests.

Convenience: *Disposable Cutlery is more Convenient, especially if you're taking care of a lot of people.*

Biodegradable: *As Mentioned Earlier, Disposable tableware is biodegradable, so there is no doubt that using such tableware is also a more conscious choice for the environment if you're taking care of a lot of people.*

WOODEN *Satay Sticks*

6" Wooden satay Sticks are made up of natural bamboo. Which can be used as a barbeque skewers. This to be soaked in water for 3-4 hours prior before using to prevent from burning while using. This is 100% Eco-Friendly & Bio degradable. Perfect for sea foods, paneer Tikka, Kababs, vegetables, fruits & cheese items. It also can be used on small Barbeque & good to be used while camping.

KNOT *Sticks*

Bamboo Skewers with Knotted Ends are great for serving any Type of Appetizer Made from Bamboo. An innovative and fun way to spice up your food and beverage presentation- cocktails (use for holding fruit garnishes in a martini), Bloody Mary, appetizers etc.

Sharp points for easy piercing, the flat design will have its content not spinning when eating! Great for cocktail party or barbeque snacks, club sandwiches, finger food, tapas, kebabs, etc. Keeps ingredients pinned together and adds style to your food presentation.

Made of natural bamboo. The organic material will not affect the flavour of your food.
